ApplyTexas Deployment Updates

ApplyTexas Partners,

We are committed to continuously improving the functionality and user experience of the ApplyTexas platform. This week, we are excited to roll out several updates aimed at addressing key issues reported across admin and applicant portals. Below are the details of the updates and the scheduled maintenance window.

Thursday's deployment update aims to resolve the following issues:

Admin Portal Enhancements:

- **Network activity indicator:** We hope to introduce a new indicator in the Admin portal during CSV downloads to display progress, ensuring a better user experience during data operations.
- **Updated college dropdown list:** We will update the college list dropdown display in the admin portal.

Applicant Portal Updates:

- **Update logic for application display vs. enforced deadlines:** We plan to update the logic so schools will still display in school search until the enforced deadline.

- **Revised language and conditional logic in Core Questions:** Updating verbiage in Future College/University Plans section.

EDI File Adjustments:

- **Addressing blank college city information:** We plan to resolve instances where the college city appears blank in the EDI file.
- **Transmission:** We aim to fix instances of issues where applications are marked as submitted but were not transmitted after the application transmission window.
- **Eliminating scholarship transmission duplications:** Our goal is to address duplications in scholarship transmissions.

Maintenance Window: Please note the ApplyTexas system will be unavailable during our scheduled maintenance window from 7 – 11:59 p.m. CT on Thursday, July 25. We appreciate your understanding as these updates are implemented.

Upcoming Trainings: We encourage you to join our training session this Wednesday at 3 p.m. CT, focusing on the Admin and Applicant portals. These sessions are designed to enhance your management and understanding of the system. [Please register for the session here.](#)
