

# Texas Higher Education COORDINATING BOARD

## ApplyTexas Deployment Updates

Dear ApplyTexas Partners,

We are pleased to announce the successful deployment of several key updates to the ApplyTexas system. These enhancements, aimed at improving functionality and user experience, were effectively implemented during our recent maintenance window.

### Deployment Success Highlights:

#### Admin Portal Enhancements:

- **Network activity indicator:** The new progress indicator for CSV downloads in the Admin portal is now live.
- **Updated college dropdown list:** The college list dropdown in the Admin portal has been updated.

#### Applicant Portal Updates:

- **Updated logic for application display vs. enforced deadlines:** We have updated the logic so that schools will continue to be displayed in the school search until the enforced deadline.

- **Revised language and conditional logic in Core Questions:** The verbiage in the Future College/University Plans section has been revised to make instructions clearer. The character limit for responses in core questions has also been updated to reduce errors blocking users from proceeding.

**EDI File Adjustments:**

- **Addressing blank college city information:** We have resolved the instances where the college city appeared blank in the EDI file.
- **Transmission fixes:** We have corrected issues where applications were marked as submitted but were not transmitted after the application transmission window.
- **Elimination of scholarship transmission duplications:** Duplications in scholarship transmissions have been addressed and eliminated.

As a reminder, for ongoing support and updates, please visit the [Redesigned ApplyTexas - Texas Higher Education Coordinating Board site](#).

Sincerely,

The ApplyTexas Team
