## ApplyTexas Graduate Application Update

Dear educator,

Applying to graduate school is an exciting time! We understand that due to the launch of the newly redesigned ApplyTexas on June 10, 2024, you may have experienced challenges with your graduate application to the University of Texas at Austin.

The ApplyTexas team is working directly with UT Austin. At this time, we can confirm your graduate application was successfully transmitted, and we will continue to work with their team to ensure it is processed. Once that takes place, you will be able to log in to the UT Austin applicant portal and move forward with the next steps of the application process.

We appreciate your continued patience. Good luck in your graduate education pursuits!

Respectfully,

The ApplyTexas Team
