HOW IT WORKS

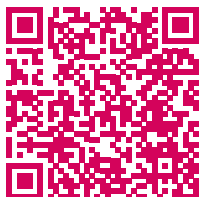

Before even submitting an application, **MY TEXAS FUTURE** matches your academic information with the admissions requirements of participating Texas colleges and **immediately provides a list of schools** where you qualify for admission!

From that personalized list, you can then complete an application to apply to your chosen major and receive scholarship and financial aid information.

Don't worry if you don't see your dream school on your list or don't have all your academic information on hand. You can still apply through the regular, holistic process or come back and add additional academic information later!

NEW GRADUATION REQUIREMENT

Starting in the 2026-2027 school year, students will use My Texas Future - a new tool created by Senate Bill 2314 (89th Legislature, 2025) - to explore and apply to Texas colleges and universities. Through My Texas Future, which connects with ApplyTexas, each student must choose whether to opt-in or out of sharing their records for Direct Admissions.
